

Triton Central Band and Guard Boosters Credits for Dollars Program 2022-2023

The Boosters are continuing to offer a system for helping students offset the cost of band fees as well as reward those students and parents that put time and money into the Triton Central Band program. Every TC Band/Guard student will have their own student account set aside to help pay for their Marching Band, Winter Percussion, and Winter Guard fees. Students and parents may earn credits that accumulate in the student's account. **Students may use credits for up to 50% of each season's fees.**

Credits may be accumulated year-round, beginning the student's 6th grade year in band. Credits never expire, and may roll-over from year to year.

Credits are non-refundable and non-transferable.

All credits are forfeited when a student leaves the band/guard program for any reason. (quits, moves, graduates, etc)

One credit = five dollars.

Students and Parents may earn one credit for the following:

- One hour of volunteer work previously approved by the band director and band booster president (concession stand, garage sale, music library, etc.)

Credits may also be earned for hauling a trailer for a band/guard event:

- If you drive your own vehicle = 5 credits (\$25) per event under 150 total miles. 10 credits (\$50) per event over 150 total miles.
- If you provide your own trailer = 5 credits (\$25) per event regardless of miles

Our hope is that this system will help all band students with the costs of participating in the band program. If you any questions, concerns, or ideas about this, please contact Mr. Shepherd or Mrs. Oyler.
